Boos Block Applicator

Boos Block Applicators provide a fast, professional and easy way to apply Boos Block Mystery Oil and Board Cream to your cutting boards, butcher blocks, wooden bowls and utensils. The solid hardwood handle provides a perfect grip for ease of control. The special silver ion treated anti-bacterial sponge prevents bacteria growth within the sponge and on wood surfaces. Applies smoothly, evenly and consistently with no waste or mess of oils or creams. Includes a cap for easy storage and protection.

Boos Block Mystery Oil

Boos Block Mystery Oil contains all natural food safe ingredients. The oil penetrates deep into the grains of the wood to protect and revitalize the wood fibers. Applying a generous amount and letting it sit overnight, will help reduce dryness to your wood surface. Wipe off any excess in the morning. Do not over oil your wood products. (Available in different sizes.)

Boos Block Board Cream

Boos Block Board Cream is recommended to be used in conjunction to the Boos Block® Mystery Oil. The Board Cream contains unbleached beeswax and food grade mineral oil. The higher wax content provides a long lasting moisture barrier that is perfect for periods of storage or light use.

Care & Maintenance Instructions

To prolong the life of your butcher block surface, follow these simple care and maintenance instructions.

1. A minimum of once a month (depending upon the use and household conditions), apply an even coat of Boos Mystery Oil to your butcher block surface using the Applicator. Make sure the butcher block surface is clean from debris, dirt, oil, or grease before applying Mystery Oil.
2. Allow the Mystery Oil to fully penetrate into the wood fibers overnight, then wipe off any excess oil.
3. Apply additional oil to any visible dry spots. Do not over oil your wood surface.
4. It is recommended to use Boos Block Board Cream to seal the top of the wood surface after applying the Mystery Oil. Apply an even coat of the Board Cream using the applicator. Allow the Board Cream to penetrate the wood surface overnight, then wipe off any excess Board Cream.
